WORK EXPERIENCE

Vertafore

Sept. 2023 – Present

Software Engineer II

New York, NY

- Part of the MGA Systems team at Vertafore, building the Insurance Management System (IMS) suite with integrated accounting, billing, and claims, within a cloud platform serving 20,000+ agencies and carriers across North America.
 - Stack: C#/.NET, Azure, SQL Server, Github Copilot, Node.js, Locust, Python, VB.NET, ASP.NET/WPF
- Spearheaded cross-product custom webhook and external-listener architecture, designed to scale to additional products and custom client systems.
- Refactored multiple legacy projects within a monolithic .NET codebase serving 70+ enterprise clients, modernizing architecture to accelerate feature delivery and improve maintainability.
- Designed and built a secure data-access API, applying REST service architecture to support enterprise client integration into a production system.
- Established unit-test coverage standards for the data-access API and drove standardization of testing practices and TDD adoption across a 5-person engineering team.

Publicis Sapient

Jul. 2022 – Sept. 2023

Software Engineer

Denver, CO

- Built and maintained full-stack web applications on the Salesforce Lightning platform for over 20 project teams, supporting project finance tracking and visualization.
- Optimized data pipelines for clients, significantly increasing query efficiency and enabling near real-time cross-team reporting.

CFM, Inc.

Oct. 2021 – May 2022

Software Engineer (Intern)

Tempe, AZ

- Implemented automated testing pipelines using custom tooling and frameworks like Selenium for financial-institution clients.
- Conducted on-site QA and regulatory compliance testing of custom firmware on banking hardware.

EDUCATION

Fulton Schools of Engineering, Arizona State University

May 2022

B.S., Computer Science

Tempe, AZ
